

1. I would like to submit that Air 1 radio is vital for our Local community of Las Vegas and the surrounding area. It is a positive alternative to many of the negative influences that pervade our valley here.
2. If Air 1 were displaced it would leave a gaping hole in our valley. We desperately need as many positive influences we can get.
3. Air 1 is a great service for public interest. It is vital to our community especially our youth. It truly gives our youth a positive perspective on life around them. With so many negative influences for our youth to choose from, Air 1 is a beacon of hope in the Las Vegas area.

Thank You for the opportunity to share in this public forum.

Sincerely,  
Richard Roberts
